Product Change Notification

Product Part Number	FT120T and FT120Q	Estimated implementation date
Description of Change	Update from Rev B to Rev C to improve compatibility with D12	2013-30-04
Reason for Change	To ensure no or minimum changes needed to migrate D12 to FT120; see TN_142 for background details.	
Detailed Description	All the backward compatible issues listed below have been fixed: BUG A : Interrupt will be generated even if it is disabled BUG B : Suspend not asserted while clock_running=1 BUG C : Lazy_clk do not output when clock_running=1 and no_lazy_clk=0 BUG D : GL_N remains on when suspended BUG E : Goodlink output is not open-drain BUG F : Int_n output is not open-drain	
Impact to Data sheet	No change	
Benefit of Change	No or minimum changes needed on software or hardware when migrating from D12 to FT120	
Markings to distinguish revised from:	Device date code will be changed to a "C" to indicate revision C	
Sample Availability	Early May 2013	
Risk Assessment, Fit Form and Function & reliability	Risk assessment: Minimizes risk of operation for replacement designs of PDIUSB12. Fit: Unchanged Form: Visual appearance is unchanged except for markings for rev C Function: Device function remains unchanged in existing systems
